PROFILE

Skilled and adaptable Full-Stack Developer and Data Analyst with a passion for problem-solving and optimal thinking. Experienced in designing and developing robust, scalable web applications with expertise in Python, Flask, CRUD (Fast API, Web Sockets), Django, and AI-driven solutions.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL, JavaScript, HTML/CSS

Web Development: React.js, Node.js, Express, Django, FastAPI, Flask, HTML5, CSS3, Bootstrap, Tailwind

Database & Tools: MongoDB, MySQL, SQLite, PostgreSQL, Git, Docker, VS Code, Figma, Photoshop

Data Science & AI: Power BI, Machine Learning, RAG, LLM, PyTorch, Hugging Face Transformers

Networking & RPA: Cisco Networking (CCNA), UiPath (RPA)

EXPERIENCE

Web Developer Intern

July. 2024 – Oct. 2024

S.S.V Traders

Remote

- Developed high-impact website modules using HTML, CSS, and JavaScript with a focus on responsive design.
- Utilized Material-UI for a modular component library, ensuring a modern and scalable user interface.

Full-Stack Development Intern

Dec. 2023 – Jan. 2024

Bharat Intern

Remote

- Mastered front-end (HTML/CSS/JS) and back-end technologies while optimizing server-side logic.
- Achieved a 25% reduction in load times and a 20% increase in user engagement through performance tuning.

PROJECTS

Vendor Management System | *Python, FastAPI, Streamlit, SQLite*

- Engineered a comprehensive system to streamline vendor onboarding, product tracking, and order management.
- Architected RESTful APIs using **FastAPI** to handle data transactions and backend logic for vendor operations.
- Developed an interactive dashboard in **Streamlit** for real-time inventory reporting and visualization.

Office Automation System | *Python, Django, SQLite, Bootstrap, JS*

- Developed a web-based suite using **Django** to manage office operations like order processing and customer details.
- Built a responsive UI for invoice generation and file handling, reducing manual data entry for administrative tasks.

PDF Reader / Analyzer | *Python, ML, LLM, RAG, Google API, Streamlit*

- Developed a RAG-based system utilizing Google APIs to analyze PDFs and provide context-aware answers to queries.
- Built an interactive front-end using **Streamlit** to facilitate seamless document interaction.

AI Image Generator | *Python, PyTorch, Hugging Face API, Streamlit*

- Integrated **Hugging Face Transformers** and Diffusers to create a text-to-image generation application.
- Managed the full application lifecycle from model inference to user-facing web deployment via Streamlit.

Chatty (Real-Time Communication) | *React.js, Express, Node.js, MongoDB*

- Architected a full-stack chat application facilitating real-time communication across any web browser.
- Managed user authentication and persistent chat history using **MongoDB** and **Express** middleware.

CERTIFICATIONS

Web Development: The Complete Web Development Bootcamp (Udemy), Intro to Front-End Development with React JS (Coursera)

Networking (Cisco): CCNA 1: Intro to Networks, CCNA 2: Switching, Routing, Wireless Essentials, CCNA 3: Enterprise Networking, Security, and Automation

Automation & Security: RPA Citizen Developer Foundation (UiPath Academy), Introduction to Cybersecurity, PCAP – Programming Essentials in Python

EDUCATION

Chennai Institute of Technology

B.E., Computer Science and Engineering (CGPA: 7.98)

Chennai, India

May 2021 – April 2025
